

AKASH KUMAR

React Native Developer

+91 8757865758 | akashkumar119911@gmail.com | [LinkedIn](#) | [GitHub](#) | Bengaluru, India

SUMMARY

React Native developer with 3+ years building and shipping production mobile apps in fintech and consumer domains, with working exposure to native Android (Kotlin/Java) and iOS (Swift/Objective-C), React Native New Architecture (Fabric/TurboModules), and CI/CD pipelines. Led end-to-end development of a micro-lending loan management app used across a multi-role approval workflow, integrating OCR, credit-bureau, geolocation, and media-capture APIs. Track record of measurable performance and UX improvements across Play Store and App Store releases.

EXPERIENCE

Software Developer

Jan 2025 – Present

Plugseal Innovation Services Pvt Ltd Bengaluru

- Spearheaded end-to-end development of Seeds, a micro-financing loan management app enabling loans up to ₹3L for small business owners and women entrepreneurs.
- Built a multi-step, three-role approval workflow: Regional Officer (field data capture, Aadhaar/PAN OCR, Equifax CIBIL scoring initiation), Branch Manager (form verification, geolocation checks within 100m via Google Maps API, voice interview capture), and Branch Credit Manager (final validation of business, asset, and property details).
- Integrated OCR, Equifax CIBIL, PennyDrop bank verification, and Google Maps geolocation APIs, plus camera/video/audio capture, into a reusable custom form-validation framework.
- Set up Firebase App Distribution and Sentry.io monitoring, accelerating QA feedback cycles and real-time error detection.

Software Developer

Jun 2023 – Dec 2024

WorldRef Technology Delhi

- Engineered and launched mobile apps on Play Store and App Store, growing user engagement by 25% and reaching a 4.9-star rating.
- Reduced app size by 80% through code optimization and dependency cleanup, and refactored the codebase to improve maintainability by 35%.
- Built a reusable React Native component library and a TypeScript-based MVC architecture, cutting development time-to-delivery by 40% and boosting data-handling efficiency by 50%.
- Redesigned UI/UX, improving user retention by 30%; introduced in-app vision-camera capture, lifting engagement by 30%.
- Integrated Sentry for error tracking (cutting bug resolution time by 60%), Zustand for state management, and AsyncStorage for local persistence (50% faster data retrieval).

React Native Developer Intern

Jan 2023 – Jun 2023

Mobiloitte Delhi

- Designed user-friendly, accessible UIs and built a reusable component library in React Native and JavaScript, cutting development time by 40%.
- Integrated REST APIs with Axios for seamless front-end/back-end data communication.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, HTML/CSS

Mobile: React Native, New Architecture (Fabric/TurboModules), React.js, Redux, Zustand

Native: Android (Kotlin/Java), iOS (Swift/Objective-C)

Backend / Cloud: Firebase, MongoDB, Prisma ORM, NeonDB

Tools & Platforms: Git & GitHub, VS Code, Android Studio, Xcode, Postman, Sentry.io, CI/CD (Fastlane, Bitrise, GitHub Actions)

Integrations: Axios, Google Maps API, OCR, Push Notifications, Deep Linking, Camera/Video/Voice capture, Play Store & App Store deployment

EDUCATION

Bachelor of Technology in Computer Science

Aug 2019 – May 2023

Bharat Institute of Technology (BIT), Meerut, UP
